

A circular portrait of a young man with short dark hair, wearing a dark blazer over a white shirt, set against a light gray background.

Jonathan Jong

Professional web developer

Profile

Experienced web developer with a proven track record of designing and implementing visually stunning, user-friendly websites. Proficient in a wide range of programming languages and technologies, including HTML, CSS, JavaScript, and React. Skilled at collaborating with cross-functional teams to deliver high-quality projects on time and within budget. Strong problem-solving abilities and a passion for staying up-to-date on the latest industry trends and best practices. Seeking to leverage my expertise to create dynamic and innovative web solutions for a forward-thinking company.

Education

Hong Kong University of Science and Technology
(HKUST), Clear Water Bay

March 2014 - March 2017

First-class degree in Marketing

bachelor's degree in Computer science and information processing

Experience

February 2019 - September 2021

Front-end developer

Razer Child company based in Hong Kong

Started as a solo senior front-end developer to develop a new website in React, AWS, and PHP, for the client to sell specialized meals locally and helped them to build a large team of expert software developers to take the brand nationwide. This project required specialization and in depth expertise of React, AWS, PHP, VueJS, HTML, CSS.

August 2021 - December 2022

CSC IT Agency

Project manager and consultant

Specialized in generating development tasks for multiple associations. As an IT Manager, tasks were passed to other developers to make sure work was done on time and quality of work delivered was top notch. As well as gathering information, planning, design, development and maintenance
